**B.O.B. 1500
 PORTABLE AIR LIFT**
 Catalog No. 14472

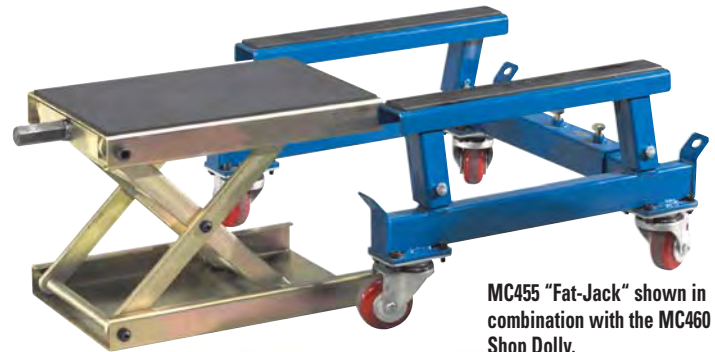

The B.O.B. 1500 Air Lift is packed with features and benefits. This lift was designed from the ground up with the Motorcycle/ATV technician in mind. It features a dropout rear panel that makes rear wheel removal a breeze. The lift has a 40" maximum rise with seven intermediate locking positions and a lifting capacity of 1,500 pounds. For easy on/off loading, the lift lowers to 10". To better fit your needs, the B.O.B. 1500 Lift can be outfitted with several different options.

FEATURES

- Extra heavy-duty pneumatic air cylinder
- A variety of optional extension choices
- 28" x 84" steel top with removable rear ramp (included)
- 1,500 lb. Capacity
- Lifts up to 40" high
- Multiple position front wheel vise (recommended)
- Foot pedal control valve allows easy up-down operation

OPTIONS (B.O.B. 1500 Lift)

- 14476** CV-17 Wheel Vise (multi-position): As shown on lift
14473 12" Side Extensions: Two 12" x 84" panels – makes lift table 52" wide
14474 13" Front Extension: Extends length to 97" – for longer motorcycles
14475 Trike Extension: Allows for "trike" style motorcycles
16010 Tool Tray: Quick release, fits all lifts – 39-3/4" x 7" x 1-3/4"
