

COATS MOTORIZED TIRE CHANGER

The "Industry Standard" Motorized Tire Changer!

2 Nationally known for quality, this heavy-duty tire changer is the machine of choice!

The Coats RC-100 is considered the "Industry Standard" for Motorcycle and ATV dealers alike. The RC-100 includes all the latest features for servicing custom motorcycle alloy wheels and high performance tires safely without damaging the rims. This motorized tire changer offers complete wheel protection and effortless bead breaking even on tough ATV tires. It saves time, helps sell more tires and will enhance your service credibility. In addition, the newly upgraded motorcycle clamps accommodate virtually every motorcycle wheel, including wheels with belt-drive pulleys. You will benefit from the many hours of application engineering that has gone into making the RC-100 the best for the motorcycle industry!

For over 50 years, COATS has been building top quality tire changers to fit a variety of special applications. Unlike some imported brands, the RC-100 is built in the U.S.A., and is supported by the largest nationwide network of authorized service centers.
